ALLAN RAYMOND S

Data Scientist

allanraymond2005@gmail.com | 9042523546 | Chennai | LinkedIn

PROFESSIONAL SUMMARY

Results-oriented Data Scientist with six months of experience and a strong foundation in Python, SQL, Excel, statistics, and data analysis. Skilled in data cleaning, data preprocessing, exploratory data analysis (EDA), data visualization, KPI reporting, and dashboard development. Familiar with Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn, with an interest in Machine Learning, predictive analytics, and Generative AI. Passionate about solving real-world business problems through data-driven insights and continuously developing technical skills to build a career in Data Science

TECHNICAL SKILLS

Languages & Libraries: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), Django

Data Science & Machine Learning: Data Preprocessing, Feature Engineering, Exploratory Data Analysis (EDA), Supervised Learning, Unsupervised Learning, Regression, Classification, Clustering, Model Evaluation

Data Analysis & Visualization: Microsoft Excel, Power BI, Data Cleaning, Data Visualization, Statistical Analysis, Data Interpretation, Dashboard Development

Database & SQL: MySQL, SQL (DDL, DML, Joins, Subqueries, Aggregations, CTEs), Database Design, Query Optimization

Statistics: Descriptive Statistics, Probability, Hypothesis Testing, Correlation & Regression Analysis

Generative AI: Generative AI Fundamentals, Prompt Engineering, LLM Concepts, AI-Assisted Data Analysis

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook

PROFESSIONAL EXPERIENCE

BDreamz Global Solutions Pvt Ltd

Designation: Data Scientist | **Duration:** May 2026-Present

Project Title: **AI-Powered IT Incident Intelligence Platform**

- Developed a Python-based incident analytics pipeline using Pandas and SQL to clean, process, and analyse IT incident data.
- Built and evaluated machine learning models to predict incident resolution time and identify potential SLA risks.
- Implemented a FastAPI backend to serve model predictions and process incident-related requests.
- Designed an interactive Streamlit dashboard to visualise incident trends, prioritisation insights, and prediction results.
- Applied model evaluation, explainability techniques, and automated testing to assess prediction reliability and improve maintainability.
- Tech Stack: Python, Pandas, Scikit-learn, SQL, FastAPI, Streamlit, Git, Docker.

PROJECTS

Project Title: **AI-Based Mock Interview Platform with Multi-Modal Analysis and Candidate Readiness Index**

- Engineered a multi-modal AI interview simulation platform integrating NLP, generative AI, speech recognition, and computer vision to automate candidate evaluation with React, Flask, and PostgreSQL.
- Implemented resume parsing and context-aware question generation using PyMuPDF, spaCy, and Mistral-7B, extracting structured candidate entities to drive personalized, domain-specific interview questions.
- Built speech and behavioral analysis pipelines with VOSK, SentenceBERT, OpenCV, and DeepFace, achieving 84–88% accuracy across entity extraction, transcription, and emotion detection modules.
- Designed a composite Candidate Readiness Index combining linguistic, behavioral, emotional, and content-accuracy scores, validated through pilot testing on 26 participants for consistent, interpretable feedback.

Project Title: **Airline Reservation & Flight Management System**

- Designed a normalized (3NF) MySQL airline database with 10+ interconnected tables, using indexing, triggers, and transaction-safe booking procedures to maintain data integrity and optimize query performance.
- Built window-function and CTE-based analytics for route profitability, load factor, and customer segmentation, visualized in a Power BI dashboard.

EDUCATION

B. Tech-CSE/DATA SCIENCE| Kalasalingam Academy of Research and Education — **2022-2026 |7.0 cgpa**

HSC (Class XII) | Sri Sowdambika convent, Aruppukottai — **2021-2022 | 70%**

SSLC (Class X) | SBK Thyagarajan memorial matriculation school, Aruppukottai — **2019-2020 | 74%**

CERTIFICATIONS

Data Analyst Certification — Besant Technologies

Anthropic Courses Certification — Anthropic

LANGUAGES

Tamil, English, Hindi, German
